

## **Eszter Perenyi**

Eszter Perenyi is a ChildTrauma Academy Fancourt Memorial Scholar. As a social worker focused on infant mental health, Eszter has worked with high-risk infants in Australia, England and the United States.

Eszter is currently living in the United States to undertake further study and work experience in infant mental health. She is currently completing an Infant Parent Mental Health Fellowship at the University of Massachusetts under the guidance of Dr. Ed Tronick. In addition to her academic work, she also assists with assessments and coding the interactive behaviour of infants and parents in the Attachment Research Lab at the New School in New York City.

Eszter has a variety of experience in working with traumatized children and families, child abuse and neglect and end of life care. Prior to moving to the United States, Eszter worked in the General Medical/Cardiac/Intensive Care wards of the Royal Children's Hospital in Melbourne, Australia.

Eszter is committed to the safety and well-being of vulnerable young children and to promoting healthy infant growth and development through individualized care.
