

**Sofia Cattelan, M.A.**

Sofia Cattelan is a Fancourt Memorial Scholar for The ChildTrauma Academy and a Master Research Student at the University of Milano-Bicocca, Milan. She has been a sexual abuse Counsellor since 2015.

In her Master's program, Ms. Cattelan developed a research project in Bosnia-Herzegovina which examined PTSD within a population of veterans and female victims of sexual abuse; her work focused on war trauma and its long term effects.

Ms. Cattelan is currently working as psychologist in the Psychiatric Centre for Children and Adolescents directed by Dr. Reichmann. Here she uses NMT to understand the developmental level of each child, in a neurodevelopmental framework.

Ms. Cattelan is a member of a research project aimed at validating the NMT in Italy both with non-clinical children and with children who suffer from PTSD.
